

Note for an Eco-Tourist Guide

A. Greetings and introduction (consider how to impress people on you as a professional tourist guide and the place they are going to visit)

B. Description of Places (firstly, summarise the whole itinerary, then introduce them one by one, highlighting their unique characteristics in terms of scenery value, the stories associated with them or other worth noting things).

C. About Environment (Describe the natural scenery of the places you visit and their natural and historical attractions. Try to locate relevant information from the web or relevant books and magazines)

D. Other comments (Do you know anything about the background of the visitors? Try to contrast what you show them with what you know about their homeland)
